Date: Thursday 14th March

Dear Parent/Guardian,

As you may be aware, we will be celebrating British Science Week next week. We have a variety of fun, exciting and enriching opportunities for your children to get involved with in school. **One such opportunity will be the “Silly Science” workshops that will be taking place for both KS1 and KS2.** These workshops are facilitated by the Education Group, are linked to the national curriculum and aim to legitimately increase children's engagement with and aspirations for, Science Learning.

A leading provider of education workshops nationally, the Education Group's Science workshops hope to be extremely engaging and enjoyable for our children. The science behind the experiments that children will experience is based upon the National Curriculum, where children will learn about elements, why molecules bond, understand the magic of lift and the power of pressure as well as experiencing explosions!

The workshops will take place on Thursday 21st March.

As a paid workshop experience, we ask that each child contributes £3 for the cost of the day.

This can be paid on your child's Scopay account and will need to be paid by Thursday 21st March.

If you have any questions, please do contact the office.

Yours sincerely,

Mr Spencer
